

SAFIRE

# Find Francazal Airport

SAFIRE is located on Toulouse Francazal Airport, located in the town of Cugnaux, south - west of Toulouse (direction Tarbes)

CNRS SAFIRE
Aéroport de Toulouse Francazal
Avenue du Général Barès
B.P. 20034
31270 Cugnaux-France

Access by car
Take the A64 towards Tarbes
Take exit n° 37 (Cugnaux)
Follow Francazal Toulouse Airport
(entrance at 135 Avenue of Comminges)

# Find SAFIRE on the airport

 Since you enter a restricted area, the access requires to call the secretary to open the entry gate.

 Take the road in front of you (slightly to the left) and continue straight until you see the SAFIRE hangar (last building on the right side of the lane). Pass the turnstile

and report to the reception

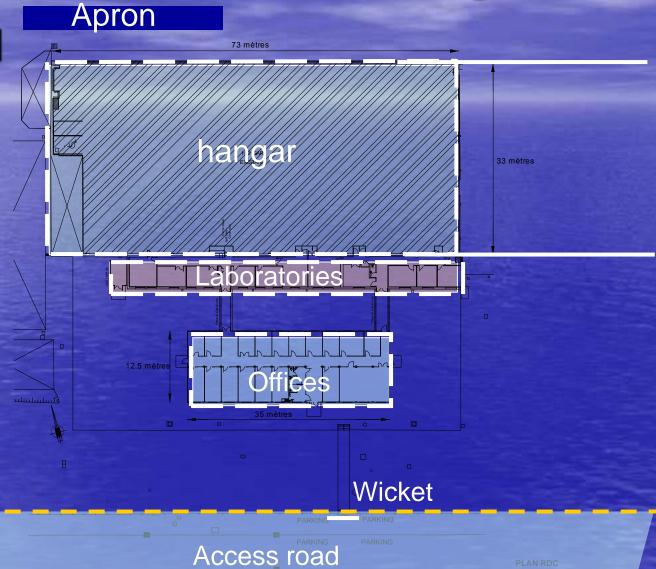

At the entrance, stop in front of the entryphone located 5 meters before the access gate
Scroll through the names and ring on "CNRS SAFIRE" to open the gate

Or call 05-34-57-23-23 desk@safire.fr

# SAFIRE offices & hangar

Restricted area

# Airport area

 All device and material must be declared at SAFIRE before to be loaded (in particular sensitive goods such as gas...)

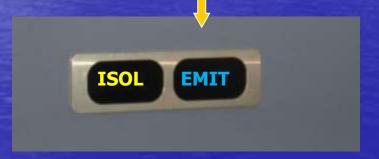

- Hierarchy on board
  - 1- the Captain, on the left seat in the cockpit
  - 2- the First Officer, on the right seat in the cockpit and the mechanic on the jump seat
  - 4- the SAFIRE main experimenter, is seated on the right aft part of the cabin
  - 5- the scientists

- the SAFIRE main experimenter is in charge of safety in the cabin
- He organizes the communications between the cockpit and the cabin
- He checks with the scientists the knowledge and the comprehension of the safety instructions
- He will organize the evacuation of the aircraft if ordered by the Captain

 All the communications are on the same loop. Before asking for a request, watch out the signs to know the com status between the cockpit and the cabin.

**ISOL:** Cockpit and Cabin are isolated **EMIT:** Cockpit is transmitting by radio

- It is requested to be present on board and ready 30 minutes before the start up of the engines.
- It is prohibited to smoke on board
- Plan ahead, there is no toilets on board

The seatbelts must be fasten during the phases of rolling, take off and landing and each time the illuminations signs are on

 It is recommended to keep your seatbelt fastened when you do not have to move in the cabin

Lighting instructions

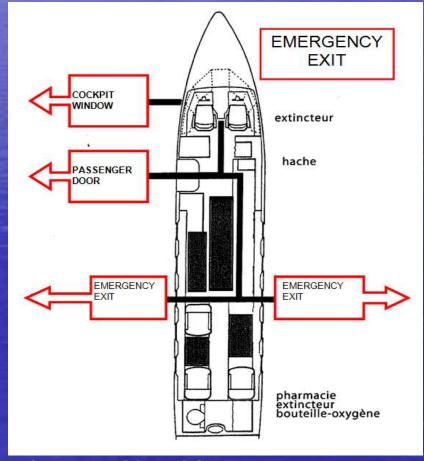

Fasten your seat belts

No smoking

 Safety card with escape route available at each working station

- The emergency evacuation will be initiated by the main experimenter on order of the captain
- It will be made obligatorily by the exit indicated

Emergency exit doors

SAFIRE

 The opening of the emergency exit is strictly reserved to the main experimenter and the pilots

The life jackets are under each seat

To put on the lifes jackets on order of the pilots or the main experimenter

The inflation of the life jackets will have to be done imperatively outside the plane

- In the event of depressurization the main experimenter will help you to fit the masks
- Maintain the mask on your face by using the elastic strap behind the head
